Dear Parents/Guardians,

The 2026 Online Consent Form is ready for you to access in QParents.

Gin Gin State High School uses third party online programs that may or may not hold student information. For students to use these programs, consent is required from the individual, or in the case of a minor, from the parent/carer to use and disclose personal information via the Online Consent Form.

Please read through the form and please choose either consent or not consent for your student to use each program. These programs are thoroughly investigated by Education Queensland before we allow students to use them and regularly checked thereafter. If you do not consent to your student using a program, their access to that site will be restricted through the Education Queensland network in early Term 1, 2026.

From 2026 onwards, Gin Gin State High School will be using digital platforms for consent forms to be accessed by parents. The platforms will be either through our webpage or through QParents.

Information on how to connect to Qparents can be found by following QR code below or by contacting Gin Gin State High School office.

If you do not wish to use QParents, you are able to access this form by either printing it from our website by scanning the below QR Code and handing into the office or collect a form from our office.

If you require further information regarding either the Online Consent Form or QParents, please do not hesitate to contact us on 41332111.
