HEAD OF DEPARTMENT: Mrs Liz Walker

Subject Outline:
Geography is concerned with people in varied environments around the world. Environments are the surroundings we live in, including such things as landforms, climates, settlements, and our social organisation. Studies in geography help us live our day to day lives by informing us about our local area and other parts of the world and students will be encouraged to actively involve themselves with community and social issues which will be impacting on them at present and in the future.

Potential Activities:

Unit 1 – Biomes and Food Security
Inquiry question/s
- What are the causes and consequences of change in places and environments and how can this change be managed?
- What are the future implications of changes to places and environments?
- Why are interconnections and interdependencies important for the future of places and environments?

Unit 2 – Geographies of Interconnections
Inquiry questions:
- What are the causes and consequences of change in places and environments and how can this change be managed?
- What are the future implications of changes to places and environments?
- Why are interconnections and interdependencies important for the future of places and environments?

Assessment Outline:
- Research reports
- Oral report
- Assignments
- Short Answer/ response to stimulus tests
- Practical activities (graphing/ mapping etc)

Student Requirements:
PRE-REQUISITE SKILLS
- A keen interest in the subject.
- Literacy skills which will equip student to read, speak and write competently in various formats.
- Compulsory, consistent and active participation.
- The ability to work independently and meet deadlines.
